

Product Specification

13.5V @ 8A 108W Enclosed HEAVY DUTY POWER SUPPLY

Product Code: ESP120

Description:

OVERLOAD PROTECTION: against inadvertent shorts and overloads by an electronic output current limiting circuit. This current limiting circuit reduces the output limiting to a very low and safe value until the overload is removed from the power supply. As soon as the overload is removed, the output will be automatically restored.

OVER TEMPERATURE PROTECTION: protects against undesired component failure or in high working temperature. The output will shut down automatically. The unit will be restarted automatically after the temperature is back to limiting condition.

LED INDICATION: For indicating the loading capacity. GREEN LIGHT: 0-10% of output rated capacity. YELLOW LIGHT: 10-80% of output rated capacity. RED LIGHT: above 80% of output rated capacity.

Specifications:

Output Voltage: 13.5V

Tolerance: $\pm 2.0\%$

Ripple & Noise: 120mV

Output Current: 8A

Efficiency: 81%

Input Frequency: 47~63Hz

Cold Start Inrush Current: 40A

Dimensions:

150mm x 140mm x 86mm (L x W x H)

Approx weight: 1.38kgs

Price:

\$82.00 + GST

Prices may be subject to change. Circumstances such as exchange rates and import duty can significantly influence prices and are regrettably beyond our control.
